

These tables break down the percent of land and square miles of each GMU that is owned by the Federal or State government. Note that lands administered by the National Park Service are closed to hunting but are shown in the table in order to show the amount of “Security Habitat” that animals can escape to when pressured by hunting. The first table is listed by GMU number and the second table is sorted by the percentage of the GMU that is Federal or State owned.

Land ownership sorted by GMU.
